comparearaportantor convert I found the wordlist tool in a tutorial for uploading the wordlists to Wordpress. I'm using "The Great Courses Plus" course as a reference. A: That course is about as good as it gets. The best material I've seen on compression and storage of wordlists is on Miquel Torres' blog. Another good reference is the BaaBaaBuuRu reference by Crazy Ant, which is a technique for compressing words based on the rule that consecutive spaces are not used as separators. Since you've already compressed your list, I'm assuming you've got a couple of GB of original wordlist. Compressing by this method may get you down to around a GB or two of compressed wordlist. However, beware that it's not compressed in a way that lets you recover it without the tool. CHICAGO (Reuters) - U.S. homebuilder D.R. Horton Inc DHI.N on Friday reported a better-than-expected quarterly profit and revenue and raised its 2018 capital spending forecast as it bounced back from the loss of top-selling Dacra brand homes in the second quarter. The company said it expects to complete construction of 145,000 to 150,000 homes in the third quarter, up from a prior forecast of 140,000 to 150,000 homes. Separately, D.R. Horton said it will sell its portfolio of single-family properties to an affiliate of Fortress Investment Group Inc. Fortress will pay \$425 million in cash to D.R. Horton for the portfolio and will assume \$1.5 billion in liabilities. Fortress will provide debt financing to pay for acquisition costs, integration and working capital requirements. The company said the Fortress deal is expected to close in the fourth quarter of this year. Chief Executive Officer Bill Elstner said D.R. Horton's purchase price is not conditioned on sales prices or sales activity at the portfolio of single-family properties. D.R. Horton's existing customers are expected to continue to purchase the brand. As a result 82157476af
